

Custom Safety Systems

GREEN Custom Safety Systems are designed to provide safe access and fall protection to tank / bulk trucks, tank cars, and hopper cars.

All GREEN custom safety systems are engineered for operator safety, for compliance with governing O.S.H.A. standards as we interpret them, and for your specific application.

Features

GREEN Custom Safety Systems have many unique features:

- Custom designed lengths anywhere from 5' to 40'
- Self-leveling safety enclosures surround the operator for superior fall protection with less space restrictions than standard gangways
- Meets and/or exceeds O.S.H.A. requirements

Access Designs

- Flat ramp or telescoping bridges
- Self-leveling stair treads
- Optional articulating safety cages
- Optional pneumatic / hydraulic lift operation

Materials / Finishes

- Uncoated Aluminum or Painted
- Hot dipped galvanized steel
- Gray / Yellow enamel or Custom

Engineering

GREEN designs and custom builds safety systems that meet even the most challenging requirements.

Our engineering team has over 150 years experience collectively and utilizes state-of-the-art CAD software.
